Denzo II

Denzo II

La vie est belle! ...and with the Denzo II collection, life gets even more beautiful, because the second edition full of French charm is also coming out this season with its strong colours and motifs. As well as geometric retro shapes, the inspiration for this collection comes particularly from botanicals. This means that you will discover a wide variety of plants, both large and small, from all over the world. They are illustrated in pencil and watercolour drawings, abstract, natural or as sketches in strong colours or in glittering gold. But the plain wallpapers are also eye catching. The colours cover the entire palette, so there is literally something for everyone. You can do everything, but you don't have to!

Technical Data:

Non-woven wallcovering collection

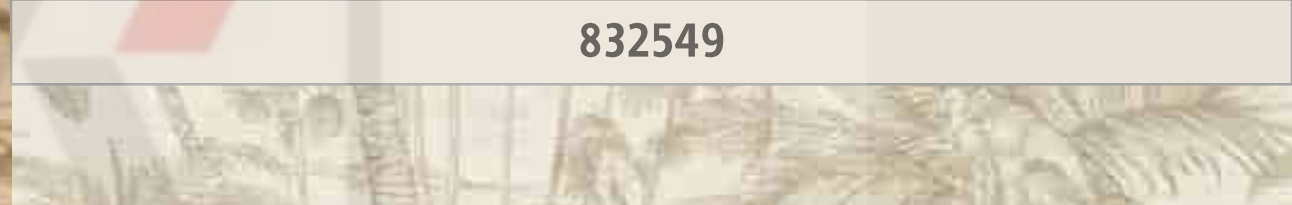

Includes 44 wallcoverings

Roll dimension: 10,05 m length x 0,53 m wide
