KALA HARI

The diversity of Africa

The special charm and unique beauty of Kalahari can be seen in many things. The wide quilted landscape and fertile oases, the unique wildlife and the remarkable way of life of the Bantu people with their traditional handicrafts have inspired the **"Kalahari"** collection.

All of this is reflected here in abstract images of sand drifts, in vibrant motifs from the animal and plant world and in impressive designs inspired by the culture of the different peoples of this particular part of Africa.

The colour palette also leaves nothing to be desired and ranges from different shades of white and natural through to sensual lemon yellow, orange-red and pale green, to bold colours such as turquoise, midnight blue and gold.

So head to Kalahari - the journey begins. And simply from your own sofa!
